Sri Lanka Cricket's New 'Team Kit' Designed by Moose Clothing launched

- **Innovation Meets Heritage in the latest 'Team Kit'**

Sri Lanka Cricket (SLC), in partnership with Moose Clothing Company, the Official Cricket Clothing Partner of SLC, today unveiled the newly designed team jerseys across all formats.

Crafted using advanced, newly developed fabrics, the jerseys feature refined design elements to enhance player comfort, optimize breathability, and enable greater mobility during high-intensity matches.

The ODI and T20I kits will make their official on-field debut during the upcoming Sri Lanka Men's Tour of Zimbabwe 2025, while the men's team played the recent home series against Bangladesh, wearing the newest test kit.

Test Jersey – Timeless White, Modern Edge

A perfect blend of tradition and innovation, the Test jersey features modern athletic tailoring for maximum mobility, durability, and breathability. SLC's signature yellow-and-blue detailing and performance mesh panels ensure players stay cool and focused during the longest battles on the pitch.

ODI Jersey – Retro Spirit, Modern Power

Reviving the iconic cricket fashion of the late '80s and '90s, the ODI jersey features a bold yellow chest band over navy blue, evoking memories of an era that shaped Sri Lanka's cricketing journey. Built with lightweight, breathable fabric, it delivers retro charm with modern performance.

T20I Jersey – Bold, Fast, Fearless

Celebrating Sri Lanka's world-class apparel heritage, the T20I jersey features a bright yellow base streaked with fine lines, symbolizing the threads that built the nation's iconic textile legacy. Paired with deep blue accents, it is engineered for speed, agility, and comfort under T20I's intense demands.

"Sri Lanka Cricket, as a sporting organization that continuously strives to raise its performance bar, is proud to welcome the new jersey — a perfect blend of our heritage, performance, and national pride. We are confident that this new attire will provide our players with the comfort they need to excel," said Mr. Ashley De Silva, CEO, Sri Lanka Cricket.

The new kits, which were launched together on the Sri Lanka Cricket and Moose Clothing digital platforms at 6 pm today, will now be available for fans across leading retail outlets and online.

"These jerseys are more than sportswear—they're a celebration of Sri Lanka's cricketing story, from heritage to innovation. Our goal was to create kits that inspire pride in every player and every fan, both on and off the field." Said Hasib Omar, CEO, Moose Clothing Company.
